

BEIM GOES TO THE UNIVERSITY OF NOTTINGHAM in MALAYSIA

The Chairman of Business Ethics Institute of Malaysia (BEIM) was invited by the Nottingham University, Malaysia Campus, to present a Talk on 'Engineering Business Ethics' to students and faculty members on Monday, 14 October 2019.

Also present at the Talk was the Honorary Secretary and Honorary Treasurer of BEIM, Mr. K. Haridas and Mr. Fred So Kee Kok, respectively.

The Talk was well received by the students and rated highly on their social media links.

The Faculty of Chemical Engineering will spearhead the establishment of the BEIM Student Chapter at Nottingham University in Malaysia.

The University of Nottingham in Malaysia is the second University in the country that will soon have its own BEIM Student Chapter. Earlier this year, Universiti Selangor, UNISEL, Shah Alam Campus successfully set up its BEIM Student Chapter (Faculty of Business).

BEIM aims to build and expand the nation's human capital awareness on exemplary Business Ethics. The BEIM Student Chapters that are being set up nationwide provides an excellent opportunity for young and aspiring youths to learn more about Business Ethics principles in action and be involved in BEIM's various initiatives and activities including Business Ethics Round Tables, Conferences, the Five Petal BEIM Gold Ethics Award TM, Talks and Dialogues aimed at raising the Malaysian Business Ethics benchmark to match global standards.
